Brand Story

01.

Brand Story

LumberWiz emerged from a profound fascination with 3D printing and a dedication to effect meaningful change in society. Established in March 2023, our journey commenced with the conviction that both outdoor and indoor living should be beautiful and sustainable. We have embraced an eco-conscious atmosphere, promoting sustainable practices within our organization, but without making a direct association with the full recycling chain.

In the short term, we aim to penetrate both outdoor and indoor markets, offering solutions such as flower pots, industrial gates, ladders, and outdoor furniture that includes tables, chairs, and benches. Our products are not just items but a reflection of our mission to inspire and transform spaces.

Looking ahead, our long-term objectives are even more ambitious. We're working on an onsite shredder, making sustainability even more convenient and portable. We aim to reduce the supply chain, ensuring that our operations have a minimal environmental impact.

Logo

03.

Logo

The LumberWiz logo is based on the core values of the brand itself; Innovation & Sustainability.
The **"L"** and **"I"** reveal the essence of this brand. The **"L"** stands tall, a symbol of sustainability, while also forming two planks signifying the process of recycling. The **"I"** in "Wiz" embodies the magic of creating something new and innovative.

LumberWiz: **Where sustainability and innovation are woven into something extraordinary.**
